

# ביה"כ היכל מנחם בית נחום צבי ע"ש הילד נחום צבי ע"ה פוטאש

A family & a community was shattered last week by the tragic death of a young 8 year old boy . Not a dry eye remains among the Jewish community in Golders Green as we walked on the final journey of this innocent & pure soul. Thousands across the world have been touched by this tragic news and feel united in grief with the community in London.

Nochum Tzvi loved going to Shul. He loved his small community of Heichal Menachem. Each time he came, he always offered his help. Though young, he joined with the other children in cleaning the Shul after davening or setting up the Farbrengen. But there were two "jobs" he loved most. For many Shabbosim he would stand near the Bima and help cover the Sefer Torah in between Aliyos. The other job was helping his treasurer father Yossi in keeping record of the donations people pledged after their Aliyos.

The last memory the Shul mispalelim have from young Nochum Tzvi is just 72 hours before his sudden passing, as he sat in Shul recording the donations and setting up the Farbrengen, with a smile.

A family shattered and a community broken. Both want to see a lasting memory for this precious soul. Families Potash/Garelick together with the Heichal Menachem community are launching a building campaign, and are asking for your help to build "Beis Nochum Tzvi" to never forget the child that loved his Shul.
